Humanities 1 year	1.0 Credits

Students should take their post-high school plans into account when selecting courses for senior year. Colleges want to see consistent engagement in a rigorous program over four years that is appropriate for the individual.

Students should be mindful of the suggested college requirements noted, and strongly consider engaging in a 4th year of study across core academic disciplines.

Additionally, enrollment in WHPS electives in desired pathways provides depth of knowledge, skill development, and content awareness in advance of any college major decisions or pursuit of employment upon graduation.
